Water from the Ice Age Fromin comes from a melting glacier that covered the mountains of northern Bohemia at the end of the Ice Age. The water from the glacier seeped into the underground, where it has been preserved in its original purity to this day enriched with slices of 24-carat gold. Improve blood circulation and heart function.

## ALCHYMIST COLLAGEN ELIXIR

The complex effect is visible in the quality of the skin, hair, nails and eyelashes. It stimulates the production of collagen and elastin itself, rather than just supplementing them as conventional dietary supplements do. You will see fast results after just one month of use. It slows the signs of ageing, increasing skin elasticity, brightness and texture.

It has a great mandarin taste thanks to the use of flavour-neutral beef collagen instead of fish collagen.
